Inaugural Address

Prof J Philip
Chairman XIME
Bangalore & Former
Director-IIM Bangalore
Conference Chair
Keynote Speaker

Prof Noel Lindsay
Pro Vice Chancellor
(Entrepreneurship) Dean of
Business, Adelaide Business
School, Australia
Keynote Speaker

About the Conference

Artificial intelligence (AI) applications in education are on the rise and have received a lot of attention in the last couple of years. AI and adaptive learning technologies are prominently featured as important developments in educational technology. Increasingly, educators have been researching to explore the potential pedagogical opportunities that AI applications can afford for supporting learners during the student life cycle.

Despite the enormous opportunities that AI might afford to support teaching and learning, new ethical implications and risks came in with the development of AI applications in higher education, particularly with the advent of ChatGPT.

Thus, it is important to explore the kind of fresh ethical implications and risks in the field of AI enhanced higher education. The aim of this International Conference is to provide a platform for educators, Student partners and Industry Leaders to debate on opportunities and Challenges posed by increasing ingress of AI applications in higher education. Given the dynamic developments in the field of AI in recent years, and the growing interest of educators in this field, a platform of this nature is on AI in higher education is warranted.

Journal Collaboration

Journal of Advanced Computational Intelligence and Intelligent Informatics (JACIII) indexed in ESCI, SCOPUS, and EI-Compendex has expressed interest in taking out a special issue for the conference. Discussions are at an advanced stage with a few other ABDC/Scopus Journals also to collaborate with the conference. All selected papers will be published in these journals. It is also planned to bring out a special Issue of our UGC Care Journal "Journal of Management & Entrepreneurship to publish a few other selected papers.
