

STANDARD OPERATING PROCEDURE FOR

SLOW AND ADVANCED LEARNERS

(2022-23)

▪ Introduction:

Guidelines for Identification of Slow and Advanced Learners of Institution

▪ Introduction:

During the path of Teaching and Learning process, teachers have to deal with different types of students; few are very bright who understand and learn very fast and few are quite weak to learn and grasp the instructions very slowly. Few students need only guidance and some need hard work and regular guidance. To determine the abilities in the class, particularly when initiating the higher education and proceeding for graduation, a faculty has to recognize the learning attitudes and learning habits of the students differently so as not to lose attention of slow learners and not to turn off the fast learners.

The purpose of these guidelines is to identify the slow and fast learners of both UG and PG programmers and to assign the supporting activities for both the groups. This will also help the teaching departments for proper mentoring of their mentee and to monitor the progress.

▪ Process Input:

To start identification of slow and fast learners, the following are the input strategies:

- Overall result of previous examination
- Result of internal assessment
- Class observation of subject teacher

▪ Process of Identification:

The process of assessment and identification of learning levels of the students and conduction of activities thereon should be carried out through a methodical technique:

A. Assessment of the learning levels of the students –

- The slow and fast learners would be identified for each course separately by respective for all programmers.
- The process of identification would be conducted after declaration of preceding exam result, considering class performance in existing academic session and personal observations of subject teacher
- The following parameters and weightages for the fresher students
 - Conduction of bridge program for each course for a duration of 10 hours along with valuation.
 - A full list of class would be finalized on the basis of the following to identify slow learner and advanced learner at the start of semester.

No.	Parameter	Weightage in Percentage
1.	Marks obtained in 12th result	50%
2.	Marks Scored in bridge program	50%

Subsequently after mid semester, the outcome is measured based on the following.

No.	Parameter	Weightage in Percentage
1.	Marks obtained in Mid-term	80%
2.	Marks obtained in faculty observation	20%

At the end of the semester the performance is evaluated to verify the procedures and outcomes of slow learner and advanced learner.

No.	Parameter	Weightage in Percentage
1.	Marks obtained in End-term	80%
2.	Marks obtained in faculty observation	20%

- A full list of class is finalized to measure and identify the procedure.
- In addition a fresh list of slow and fast learner is prepared for the follow up in subsequent year/Semester.
- The process of identification would be conducted after declaration of preceding exam result, considering class performance in existing academic session and personal observations of subject teacher.
- The following parameters and weightages for the other students except first year.
- A full class list is prepared to identify the slow & fast learner before the start of year/semester.

No.	Parameter	Weightage in Percentage
1.	Marks obtained in End-term	80%
2.	Marks obtained in faculty observation	20%

Subsequently after mid semester, the outcome is measured based on the following.

No.	Parameter	Weightage in Percentage
1.	Marks obtained in Mid-term	80%
2.	Marks obtained in faculty observation	20%

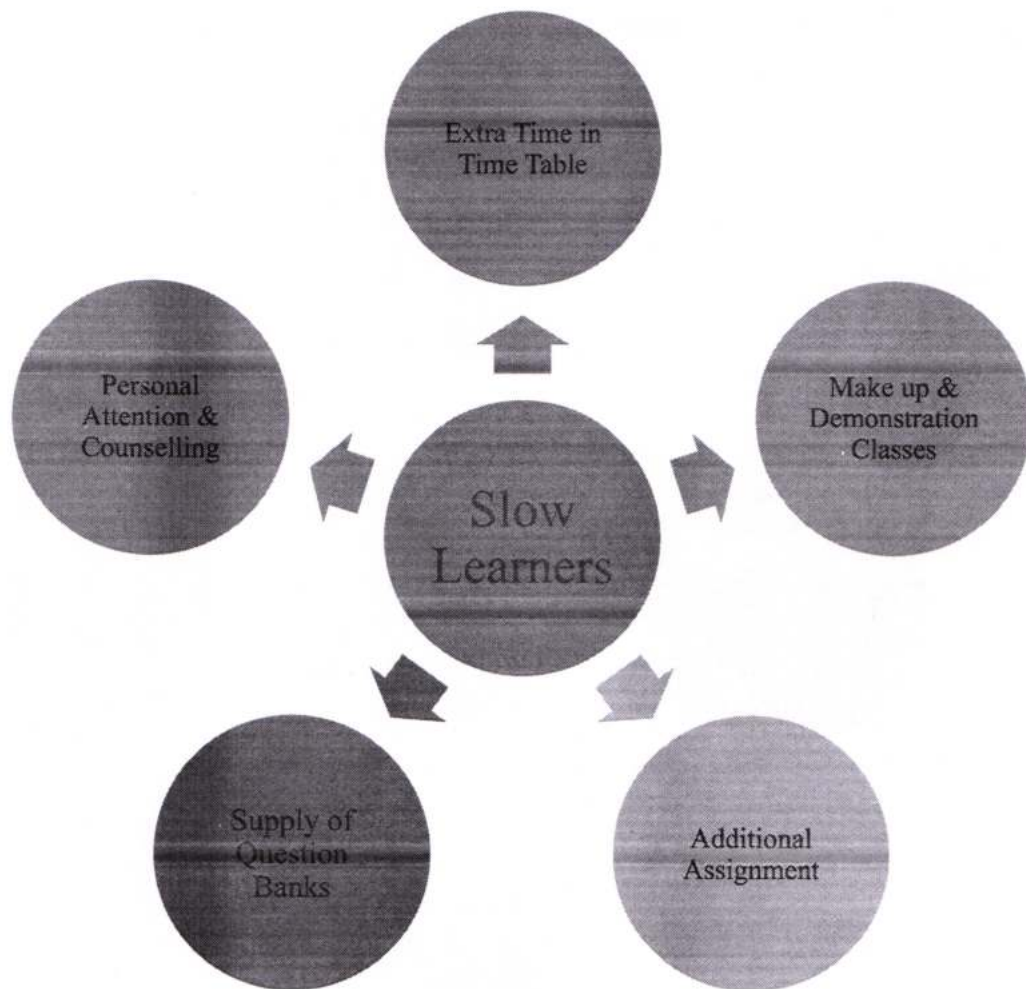

At the end of the semester the performance is evaluated to verify the procedures and outcomes of slow learner and advanced learner.

No.	Parameter	Weightage in Percentage
1.	Marks obtained in End-term	80%
2.	Marks obtained in faculty observation	20%

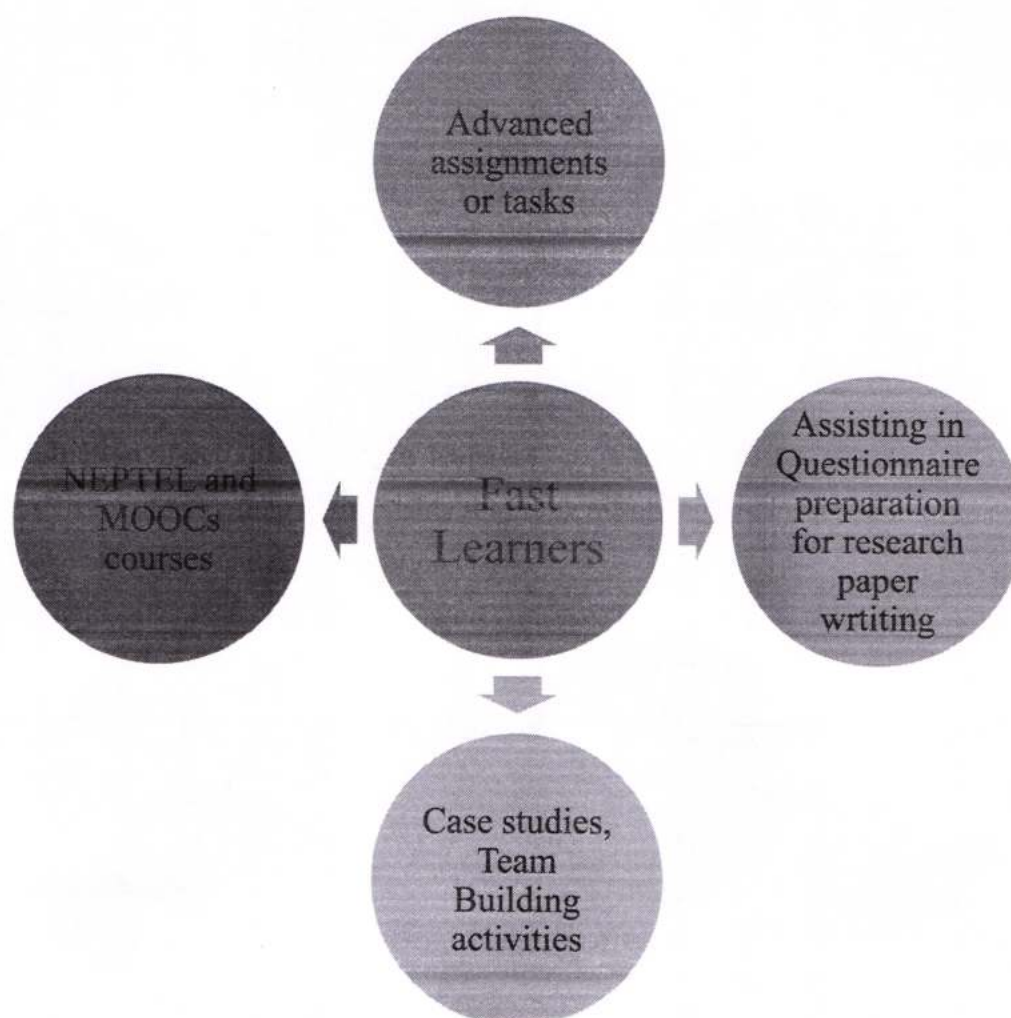

- A full list of class is finalized to measure and identify the procedure.
 - In addition a fresh list of slow and fast learner is prepared for the follow up in subsequent year/Semester.
-
- A report would be prepared for whole class for total 100%
 - The student securing marks below 60% would be identified as slow learners
 - The student securing marks above 75% would be identified as advanced learners

Activities for Slow Learners

Activities for Advanced Learners

B. Conduction of activities for Slow learners –

- Provision of extra time in time table for problem solving sessions/ revision session
- Make up classes and demonstration classes
- Assignments in the form of solving previous years examination paper

- Supply of question bank for practice
- Personal attention and counselling for providing special hints and problem solving techniques

C. Conduction of activities for Advanced learners –

- Advance assignments or tasks like participation in Seminars/ Conferences/ Technical events
- Contribution in questionnaire preparation and conduction of case studies and support in team building activities
- Encouragement to complete NPTEL and similar courses

D. Preparation of performance improvement report –

- Each faculty should prepare report after final result declaration showing improvement in the performance of slow learners to close the loop
-
- Roles and Responsibilities of Subject Teacher: The subject teacher is responsible for carrying out different aspects of slow and fast learners including identification and activities to be conducted.
 - Identification of slow and fast learners on the basis of their marks
 - Preparation of schedule for extra classes/ problem solving sessions/ revision sessions for slow learners and maintenance of records
 - Preparation of list of fast assignments or task list for fast learners
 - Preparation of improvement reports

28/08/2022

Notice to Students Identified as Slow Learners

Dear Students,

Based on UG Degree marks and Bridge course, attached is a list identifying students as slow learners. This designation aims to offer tailored support, not to stigmatize. Please utilize academic support services, consult faculty, attend workshops, consider peer mentoring, and self-assess for improvement. Seeking help is proactive, not a sign of weakness. We're here to support your academic journey. Additionally, **makeup classes** for slow learners will be held as per schedule.

Best regards,

Dean of CSA

**Rai School of Engineering,
Rai University, Ahmedabad.**

Notice to Students Identified as Slow Learners

Dear Students,

Based on UG Degree marks and Bridge course, attached is a list identifying students as slow learners. This designation aims to offer tailored support, not to stigmatize. Please utilize academic support services, consult faculty, attend workshops, consider peer mentoring, and self-assess for improvement. Seeking help is proactive, not a sign of weakness. We're here to support your academic journey. Additionally, **makeup classes** for slow learners will be held as per schedule.

Best regards,

Ms. Poonam Chakravarty,
Head of Department of CSE/IT
Rai School of Engineering,
Rai University, Ahmedabad.

Notice to Students Identified as Slow Learners

Dear Students,

Based on UG Degree marks and Bridge course, attached is a list identifying students as slow learners. This designation aims to offer tailored support, not to stigmatize. Please utilize academic support services, consult faculty, attend workshops, consider peer mentoring, and self-assess for improvement. Seeking help is proactive, not a sign of weakness. We're here to support your academic journey. Additionally, **makeup classes** for slow learners will be held as per schedule.

Best regards,

Ms. Poonam Chakravarty,
Head of Department of CSE/IT
Rai School of Engineering,
Rai University, Ahmedabad.

Notice to Students Identified as Slow Learners

Dear Students,

Based on 12th marks and Bridge course, attached is a list identifying students as slow learners. This designation aims to offer tailored support, not to stigmatize. Please utilize academic support services, consult faculty, attend workshops, consider peer mentoring, and self-assess for improvement. Seeking help is proactive, not a sign of weakness. We're here to support your academic journey. Additionally, **makeup classes** for slow learners will be held as per schedule.

Best regards,

Dean of CSA,
Rai School of Engineering,
Rai University, Ahmedabad.

Dean
Raj School of Engineering
Rai University, Ahmedabad.

Notice to Students Identified as Slow Learners

Dear Students,

Based on 12th marks and Bridge course, attached is a list identifying students as slow learners. This designation aims to offer tailored support, not to stigmatize. Please utilize academic support services, consult faculty, attend workshops, consider peer mentoring, and self-assess for improvement. Seeking help is proactive, not a sign of weakness. We're here to support your academic journey. Additionally, **makeup classes** for slow learners will be held as per schedule.

Best regards,

Dean of CSA

Rai School of Engineering,
Rai University, Ahmedabad.
