Date: 06/05/2024

Mode of Celebration: Offline

REGISTRAR

RAI UNIVERSITY
AHMEDABAD

Objective:

The idea behind conducting Research & Academic Awards aimed to celebrate the 'Founder's Day". There couldn't have been any other better way to celebrate individual's achievement in academics and recognize their achievements. This event has really made an impact in uplifting the motivation and grit of faculty achievers. Faculty who received recognition had become role models for their colleagues, inspiring others to strive for excellence in their own research and academic activities. It was a significant step forward in fostering higher participation in both academics and research.

About the Event: The event was in honour of the birth anniversary of our Founder Late Mrs. Sadhana Rai, remembering her with such thoughtful occasion of applauding the achievers for their commendable contribution in field of academics and research. Moreover, the event was a good idea for encouraging faculties in becoming invested in their learning and building competencies leading to higher levels of becoming critical thinkers. Regularly hosting such events can contribute to a sustained culture of excellence, ensuring that the institution remains at the forefront of research and academic achievement.

Highlights of the Event:

The entire event offered recognition and cash prizes to the achievers. By offering cash prizes and other incentives, the event aimed to encourage greater participation in scholarly work and motivate faculty to excel in their fields. This activity really helped as persuasion in enhancing the participation of the faculties to drive research and academic activities that will help them grow professionally, personally and financially.
