Hepatitis Test Camp

Date :- 17th August, 2022

Venue :- Saroda Village

28th July 2023, Rai University, in collaboration with the Saroda Village Primary Healthcare Center, Unnat Bharat Abhiyan and Evolve Cub organized a highly successful Hepatitis Test Campaign to commemorate World Hepatitis Day under G20 Presidential year. The primary objective of the campaign was to raise awareness about Hepatitis and provide free screening to the villagers.

The campaign commenced at 10:00 AM, and the enthusiastic participation of the villagers was overwhelming. A team of qualified medical professionals, along with university volunteers, set up testing stations and educational booths in the village center. Comprehensive information about Hepatitis, its causes, transmission, and preventive measures, shared with the villagers through interactive sessions and pamphlets.

The testing process carried out with utmost care and confidentiality, ensuring the comfort of the participants. The screenings covered Hepatitis A, B, and C. In total, 135 villagers voluntarily underwent the tests.

Immediate counseling and medical consultation provided to those diagnosed with the infection. The identified cases referred to the Saroda Village Primary Healthcare Center for further evaluation and treatment. Additionally, free vaccination offered to eligible individuals to prevent Hepatitis transmission.

The success of the campaign attributed to the proactive participation of the villagers and the collective efforts of Rai University, healthcare professionals, and volunteers. The event effectively raised awareness about Hepatitis, dispelling myths and misconceptions surrounding the disease.

Rai University's Hepatitis Test Campaign on World Hepatitis Day played a crucial role in sensitizing the villagers of Saroda about Hepatitis and promoting early detection and prevention. The initiative served as a remarkable example of community engagement and health education, ensuring a healthier future for the Saroda Village residents.

Innovation & Entrepreneurship Outreach Program

Date :- 4th Aug,2023

Venue :- Dholka

Objective:

- To foster a culture of innovation and entrepreneurship.
- To equip aspiring entrepreneurs with essential skills and knowledge.
- to create a supportive ecosystem for startups and provide incubation and mentorship.
- To empower participants to develop innovative solutions and create sustainable businesses.
- To contribute to economic growth and job creation.
- To ensure long-term sustainability and scalability through continuous evaluation and learning.

Benefits of attending :

Enhanced entrepreneurial skills, networking with experts, incubation support, fostering innovation mindset, job creation, economic growth, sustainable ventures, long-term impact, personal growth, community development.

About the Outreach Program:

The Innovation & Entrepreneurship Outreach Program organized a visit to a B.P.M. Girls Highschool, where we aimed to inspire and educate young students about the world of innovation and entrepreneurship. During the interactive session, we shared exciting ideas, real-life success stories, and engaging activities to spark their creativity and problem-solving skills. By fostering an entrepreneurial mindset at an early age, we hope to empower these students with the tools and confidence to pursue their passions, think outside the box, and become future leaders in various fields. Through such outreach initiatives, we aspire to contribute to the development of a more innovative and dynamic society.

Highlights of the Outreach Program:

The Innovation & Entrepreneurship Outreach Program organized a successful visit to a local school, where we aimed to introduce the exciting world of innovation and entrepreneurship to school students. The highlights of the program were:

Inspiring Presentations: The program started with inspiring presentations, where experienced entrepreneurs and innovators shared their personal journeys and success stories. This motivated the students to dream big and believe in their own potential.

Interactive Workshops: Engaging workshops were conducted to introduce students to the basics of entrepreneurship. Through group activities and brainstorming sessions, they learned about idea generation, problem-solving, and the importance of innovation in today's world.

Real-life Case Studies: We presented real-life case studies of young entrepreneurs who started small ventures and achieved remarkable success. This allowed students to connect with the stories and understand that age is not a barrier to pursuing their dreams.

Hands-on Activities: The students were encouraged to participate in hands-on activities, such as designing simple prototypes and mock business plans. This practical approach helped them grasp the fundamental concepts of entrepreneurship.

Q&A Sessions: Interactive Q&A sessions were held, allowing students to ask questions and seek guidance from the speakers. This personalized interaction boosted their confidence and curiosity about entrepreneurship.

Entrepreneurial Mindset: The program focused on nurturing an entrepreneurial mindset among the students. They were taught to view challenges as opportunities and to approach problem-solving with creativity and resilience.

Importance of Failure: Students were encouraged to embrace failure as a stepping stone to success. They learned that failure is a natural part of the entrepreneurial journey and an opportunity to learn and grow.

Entrepreneurship as a Career Option: The program emphasized entrepreneurship as a viable and fulfilling career option. Students were exposed to the various support systems available for aspiring entrepreneurs, such as incubation centers and startup accelerators.

Team Building: Through team-building exercises, students learned the significance of collaboration and teamwork in building successful ventures.

Vision for the Future: The program concluded with a visioning exercise, where students were encouraged to envision their future as successful entrepreneurs and leaders in their chosen fields.

Overall, the Innovation & Entrepreneurship Outreach Program at the school had a profound impact on the students, igniting their passion for entrepreneurship and instilling a sense of self-belief. By introducing them to the world of innovation and entrepreneurship at a young age, we hope to shape a generation of creative thinkers, problem solvers, and changemakers who will contribute positively to society's growth and progress.

Tree Plantation

Date :- 5th Aug , 2023

Venue:-Rai University

On 05th August 2023, Rai University (Department: School of Pharmacy) organized an event on “Tree Plantation & cleanliness drive in herbal garden”. Dr. Sanjesh Rathi, Principal (School of Pharmacy), Mr. Kamallesh Mistry (Assistant Professor), Ms. Jankhana Baraiya (Assistant Professor), Mr. Ravikiran Vegada (Assistant Professor) were present during the event .

All staff and 48 students of B.Pharmacy (1 st semester) were present in the Herbal Garden. The event started with the speech of our Dr. Sanjesh Rathi, Head of Department, School of Pharmacy. He has explained about the importance of plantation and has motivated student to plant trees and water it every day until their academic session. The event aimed to plant about 80-90 saplings in the herbal garden.

At first all students were provided with the saplings. Teachers also participated in that event and guided student how to plant the saplings. A Banner was also designed by the event organiser to plant trees and was hung there to raise awareness in the people about the needs of tree plantations. After that Mr. Kamallesh Mistry, Assistant Professor explained students about many medicinal plants, phytochemical constituents and its uses. He has briefed about synthetic medicine and herbal medicine and the importance of herbal medicine over all the synthetic drugs. After that Ms. Jankhana Baraiya (Assistant Professor) and Mr. Ravikiran Vegada (Assistant Professor) guided student about the cleanliness drive and led student to collect all the polybag of the saplings in the dustbin.

Blood Donation Drive in Celebration of PM Modi's 74th Birthday

Date :- 14 sept,2023

Venue :- Rai University

Rai University's Evolve Club Organizes Blood Donation Drive in Celebration of PM Modi's 74th Birthday on 14th September 2023 Rai University's Evolve Club, in collaboration with the Indian Red Cross Society, orchestrated a commendable Blood Donation Drive on Hon'ble Prime Minister Narendra Modi's 74th birthday. The Rai family demonstrated unwavering support by generously donating blood, contributing significantly to this noble cause. Two dedicated students led this remarkable initiative, Vivek Roy from BBA Sem-3 and Vijay Raval from MBA-3, who volunteered their time and efforts to ensure its successful execution. Their dedication and commitment duly acknowledged and appreciated by the university.

The event witnessed an impressive turnout of students, faculty, and staff, all united by their shared commitment to serving the community. The collected blood units will undoubtedly prove invaluable in saving lives during emergencies.

Rai University remains committed to promoting social responsibility and humanitarian values among its members. This Blood Donation Drive, in honor of PM Modi's birthday, underscores the university's dedication to these ideals.

Cleanliness Drive on the occasion of Gandhi Jayanti

Date :- 2nd Oct , 2023

Venue :- Dholka

Rai University organized a cleaning drive to make a positive impact on the environment and the community. A team of 40 students and 5 colleagues embarked on a journey from Rai University to Dholka Town, where we had the privilege of collaborating with Dholka Town Nagarpalika President and the team. This report highlights the details of our cleaning drive and the impact it had on the local community

Departure and Arrival: Our team departed from Rai University at 09:30 AM and reached Dholka Town, where we were warmly welcomed by the Nagarpalika President and his team. The cooperation and enthusiasm shown by the local authorities were instrumental in the success of our initiative.

Objective: The primary objective of this cleaning drive was to contribute to the cleanliness and aesthetics of the main road in Dholka Town, making it a more pleasant and hygienic environment for the local residents and visitors.

- 1. Meeting with Local Authorities:** Our first step upon arrival was a meeting with the Dholka Town Nagarpalika President. We discussed the plan for the cleaning drive and obtained valuable insights into the specific needs of the area.
- 2. Cleaning the main road:** After the meeting, we divided into groups, equipped with cleaning materials, including brooms, trash bags, and gloves. Our teams worked diligently to remove litter and debris, sweep the road, and collect trash from the roadside.
- 3. Trash Collection and Disposal:** A significant part of our effort involved the proper collection and disposal of the gathered trash. We worked closely with the local waste management team to ensure that waste was disposed of in an environmentally friendly manner.
- 4. Public Awareness:** In addition to cleaning, we engaged with local residents and shopkeepers to raise awareness about the importance of maintaining a clean environment. We encouraged them to join us in this effort and adopt responsible waste disposal habits.

Impact: The cleaning drive had several notable impacts:

- 1. Immediate Visual Improvement:** The main road in Dholka Town transformed from a littered area to a clean and visually pleasing space.
- 2. Community Engagement:** Our interactions with local residents and shopkeepers inspired some to take a more active role in keeping their surroundings clean.

3. Collaboration with Local Authorities: Our collaboration with the Dholka Town Nagarpalika President demonstrated the positive results of public-private partnerships in community development.

Conclusion: Rai University's cleaning drive in Dholka Town was a significant step towards fostering cleanliness and community involvement. Our joint efforts with local authorities and residents resulted in a cleaner and more attractive main road. While challenges remain, the initiative has laid the groundwork for ongoing efforts to maintain the area's cleanliness and raise public awareness about environmental responsibility.

Acknowledgements: We extend our gratitude to the Dholka Town Nagarpalika President and his team for their support and collaboration in making this cleaning drive a success. We also thank our students and colleagues for their dedication and hard work during this initiative. Recommendations: To build on the success of this cleaning drive, we recommend establishing a recurring cleaning schedule and continuing to engage with the local community. This will help in maintaining the cleanliness of the main road and instilling a sense of responsibility for the environment among residents.

MIND YOUR HEALTH

Date :- 11th oct , 2023

Venue :- Rai University

On October 11, 2023, an insightful workshop titled “MIND YOUR HEALTH: Importance of Mental Health and Emotional Regulation” took place at the Seminar Hall of Rai University in Ahmedabad. The event, organized by the Innovation and Incubation Center (IIC), Student Startup and Innovation Policy (SSIP), and Rai School of Management Studies, aimed to shed light on the critical aspects of mental health and

emotional well-being. The distinguished speaker for the workshop was Rajul Jagdish, a renowned Psychotherapist and the Founder of Prapti Parikh Psychotherapist, accompanied by Nandini Keshwani and Megha Basotia, esteemed psychotherapists in their own right.

The workshop commenced at 1:00 PM and provided a platform for the attendees to delve into the intricacies of maintaining a healthy mind and emotional balance. Rajul Jagdish, with her expertise, addressed the audience on various dimensions of mental health, emphasizing its significance in today's fast-paced world. Nandini Keshwani and Megha Basotia further enriched the discussion with their valuable insights, creating a comprehensive understanding of emotional regulation and its impact on overall well-being.

The program provided a holistic approach to mental well-being, focusing on stress management techniques. Mindfulness practices, including meditation and deep breathing exercises, were discussed in detail, accompanied by practical tips for incorporating these practices into daily routines. Emphasis was placed on the importance of regular exercise and personalized self-care routines to empower attendees with effective stress management tools.

An extensive overview of common mental health conditions, such as anxiety, depression, and stress-related disorders, was presented, incorporating real-life examples to enhance relatability. Strategies for recognizing signs and symptoms, both in oneself and others, were shared, fostering a deeper understanding of mental health challenges.

The event actively encouraged participants to seek professional help when facing mental health issues, providing information on local mental health resources, therapists, support groups, and crisis intervention services. The program aimed to destigmatize mental health by sharing personal stories of individuals overcoming challenges, promoting open conversations, and emphasizing the importance of treating mental health conditions as medical issues.

The Q&A session facilitated open dialogue, allowing participants to ask questions and share personal experiences. Mental health professionals were present to address inquiries, ensuring an informative and supportive environment. The program concluded with impactful closing remarks underscoring the ongoing importance of mental health awareness and providing additional resources for further learning and assistance.

The successful organization of the workshop was credited to the collaborative efforts of IIC, SSIP, and Rai School of Management Studies, demonstrating their commitment to promoting holistic well-being within the academic and professional community. The event not only provided valuable insights but also fostered an environment of awareness and support for mental health, contributing to the overall development and welfare of the participants.

National Energy Conservation Day

Date :- 12th Dec,2023

Venue :- Rai University

Rai University in Ahmedabad successfully organized a session on National Conservation Day, titled “Innovative Techniques to Practice Mission Life Themes in Daily Life” on 14th December 2023. The event, conducted by the Institution’s Innovation Council (IIC), Student Startup and Innovation Policy (SSIP), and Rai School of Sciences (RSS), aimed to raise awareness about the importance of conserving natural resources and promoting sustainable practices. The session commenced at 10:15 am and concluded at 11:15 pm, with a total of 56 students and 11 faculties actively participating. The objective was to promote

environmental awareness, encourage conservation practices, celebrate conservation successes, foster environment stewardship, and promote sustainable living.

The orientation workshop featured Dr. Dhanya J. S. as the esteemed speaker, delivering insightful presentations on integrating mission life themes into daily routines. Participants engaged in discussions, workshops, and hands-on activities, contributing to a collaborative learning environment. The diverse perspectives brought depth to the conversations.

The coordination team, led by dedicated duty bearers, ensured the seamless execution of various aspects of the event, including geotagging photos, managing feedback forms, and maintaining discipline. Ms. Annapurna delivered a heartfelt vote of thanks, expressing gratitude to Dr. Dhanya J. S., participants, and everyone involved in making the event a success.

Natasha's dynamic anchoring set the tone for the workshop, maintaining high energy levels and ensuring smooth transitions between sessions. Participant feedback has been overwhelmingly positive, praising the informative content, engaging format, and overall organization of the event.

Ms. Dhruvi Thakur managed feedback forms, which will be crucial in shaping future workshops to better meet the needs and expectations of the audience. The success of the Orientation Workshop is a testament to the collaborative efforts of the team, the expertise of the speaker, and the active participation of attendees. Rai University looks forward to building on this success for future events, continuing to promote environmental awareness and sustainable practices.

Tree Plantation and Swachha Bharat Abhiyan

Date :- 17th August, 2022

Venue :- Rai University

On August 17, 2022, Rai University Ahmedabad's School of Pharmacy conducted a Tree Plantation and Swachha Bharat Abhiyan event, emphasizing environmental awareness. The participation included 30 students and 17 faculty members. The primary objective was to raise awareness among students, particularly in the pharmacy course, about the benefits of medicinal plants. Assistant Professor Jankhna Baraiya delivered a lecture on the medicinal uses of plants during the event. The initiative aimed to highlight the significance of herbal and medicinal plants in formulations, promote environmental conservation, and contribute to the Swachha Bharat Abhiyan. The inaugural function saw the presence of the Principal, HOD, faculty, and students, emphasizing the importance of environmental consciousness for the future. Overall, the event served as a platform to educate and inspire participants about the crucial role of plants in health and environmental sustainability.

Angdan Sankalp Din

Date :- 17th September, 2022

Venue :- Rai University

Rai University organized an organ donation awareness program on September 17, 2022, marking the birth anniversary of Prime Minister Narendra Modi as "Angdan Sankalp Din." The event aimed to emphasize the importance of organ donation and encourage people to pledge to donate organs. Dr. Ashish Rami addressed the students and staff, highlighting the significance of organ donation, and a solemn pledge was taken by Dr. Sandip Chandra. The program aimed to raise awareness about the critical need for organ donation, with a focus on inspiring individuals to contribute to saving lives through this selfless act. Students and staff from various departments actively participated in the awareness program, demonstrating a collective commitment to making a positive impact on the lives of those in need.

National Pharmacy Education Day

Dated:- 6th March, 2023

Venue-Rai University Campus

On March 6, 2023, in observance of National Pharmacy Education Day, the School of Pharmacy at Rai University organized an awareness camp and rally in Saroda village to combat the misuse of narcotic and

psychotropic drugs. Approximately 200 students from D.Pharm and B. Pharm, along with faculty members, participated in the event. The rally, adorned in lab coats, aimed to raise awareness about the pharmacy profession, emphasizing the role of pharmacists in healthcare, drug discovery, and promoting safe drug use and hygiene. The students carried banners and play-cards with messages during the rally, effectively conveying the importance of medication safety. The initiative also included a free health check-up camp, offering services like BMI checks, blood sugar monitoring, blood pressure monitoring, blood oxygen monitoring, and eye checkups for the villagers. The event successfully educated the public about medication use, highlighted the significance of the pharmacy profession, and promoted cleanliness in the community. The program concluded with a vote of thanks from Professor & Principal (D. Pharm), Dr. Sanjesh Rathi, expressing gratitude to guests, villagers, the village Sarpanch, students, and faculty Members.

Extension Activity for Environment Safety and Protection

Date :- 24th February, 2023

Venue :- Rai University

The awareness program conducted by Rai University and G20, featuring Dr. Sandip Chandra, aimed to educate school students on environmental safety and protection. Dr. Chandra initiated the session at P. R. Dod Vidyamandir, Badarkah, by introducing the concept of the environment. The central objective was to instill awareness about the significance of safeguarding the environment in the current scenario. Throughout the presentation, Dr. Chandra engaged students by questioning their understanding of the environment and highlighted its essential role for all living creatures. Emphasizing the advantages of environmental safety and protection, he encouraged active participation in preserving and enhancing nature. The event proved enlightening, providing attendees with valuable knowledge and tools to address environmental challenges effectively. Overall, it was a successful initiative fostering environmental consciousness among participants.

Swachh Bharat Mission 2023 "World Forestry Day Celebration"

Date :- 21st March, 2023

Venue :- Rai University

The International Day of Forests, established on March 21, raises awareness about the vital role of forests and trees in combating climate change. The United Nations General Assembly passed a resolution on November 28, 2013, dedicating this day to various events worldwide that emphasize the significance of forests. The Indian and Gujarat government collaborate with organizations, universities, and colleges to celebrate this day. The central objective is to educate people about the impact of dwindling forests, promote sustainable forest resource usage, and emphasize the role of plants in human survival. Rai

University Organized Events On March 21, including an awareness lecture by Ms. Binal Rahte, tree plantation, and a pledge for a green campus and a better future. The initiative aligns with the Swachh Bharat Mission, urging citizens to maintain cleanliness in their surroundings. Overall, these activities contribute to fostering environmental consciousness and sustainable practices.

Swachh Bharat Mission 2023 "Innovative Ideas for Preservation and Sanitization of water"

Date :- 22nd March, 2023

Venue :- Rai University

The event led by Ms. Preeti Das aimed to enlighten students about the pressing issue of water scarcity and the necessity for innovative solutions. With 600 million people lacking access to clean drinking water, the session focused on urging the youth to play a crucial role in water conservation. Under the Swachh Bharat Mission, Rai University organized this program to create awareness about World Water Day. Ms. Preeti Das emphasized the adoption of modern water-saving technology for sustainable development. The session involved activities such as creating posters to promote water conservation and sharing innovative ideas for water purification. The event encouraged

students to actively engage in preserving and sanitizing water resources, fostering a sense of responsibility toward nature. Overall, the program provided valuable insights and resources to inspire students to make an innovative difference in addressing water-related challenges.

Swachh Bharat Mission 2023 "We celebrated World Environmental Education Day by planting trees and educating others about the importance of environment safety"

Dated:- 27th December , 2022

Venue-Rai University Campus

Rai University actively participated in World Environmental Education Day, emphasizing the significance of environmental protection and maintenance in educational institutions. Aligning with the quote, "The true meaning of life is to plant trees," the university organized a tree plantation event, instilling awareness among students and faculty about the sociocultural importance of medicinal plants. The initiative focused on identification, healthcare, and the spiritual value of these plants. Additionally, a grand program commemorating the 74th Republic Day was held, fostering patriotism and pride in the constitution of India. The university, guided by Provost Dr. Anil Tomar and Prof. Lalit Ahikari (Registrar), conducted a medicinal plant plantation at the Medicinal and Aromatic Farm, facilitated by environmental Nodal Officer Dr. Dhanya J S. This endeavor aimed to educate students and the community about the benefits of medicinal plants, contributing to a greener and healthier future. The active participation of students and faculty reflected their commitment to environmental education at Rai University.
